There are many opportunities for students to develop their leadership potential in Junior Secondary.

**Leadership Camp**
Each year our new Junior Secondary students take part in a leadership camp. This camp focuses on developing students’ skills of collaboration, cooperation, independence and communication.

**Student Representative Council**
Students can become part of the SRC which meets regularly. Members of the SRC will learn about how to become leaders who can make a difference in their school and community and how to become catalysts for positive change.

**Student Ambassadors**
Junior Secondary students are invited to become student ambassadors who represent the school at various school and community events.

**Junior Sporting Captains**
Students can nominate as Junior Sports Captains for their allocated House; they assist their Senior House Captains at school sporting events and lunchtime activities throughout the year.

**Peer Mentors**
Students can nominate to become a peer mentor and attend relevant training.

At Maryborough State High School we believe in developing the potential for leadership in all students and provide many opportunities for students to participate in a range of leadership activities in all year levels.

Students at our school are encouraged to develop their organisational skills and instigate and plan many events; these include lunch time games and activities, participation in community events, charity fundraisers and enterprise ventures.

There is a high level of leadership in the organisation and development of special events, concerts and carnivals.
