Senior School options for Year 10 –12  HPE

Health Education

Health Education is designed to assist students to:

- Appreciate the interactions between personal health, peer/family and community health
- Value the maintenance of a healthy lifestyle
- Appreciate that all members of the community can contribute in varying degrees to improving their own health, health standards in the community and the state of the environment

Physical Education

Physical activity is central to maintaining health, providing avenues for social interaction, developing self-worth and promoting community involvement.

By the conclusion of the course, students should:

- Experience the enjoyment, challenge, self-expression and social interaction that is possible through engagement and informed performance in physical activity
- Recognise the aspects of involvement in physical activity that provide personal enjoyment and satisfaction
- Acknowledge the range of values and attitudes surrounding performance in physical activities
- Develop personal esteem through involvement in physical activity
