Senior Secondary Leadership

Prefects
All Year 12 students have the opportunity to apply for prefecture at the completion of Year 11. Applications are considered by a committee which includes student and community representatives. Prefects are expected to attend scheduled meetings and take on a portfolio of responsibilities including school events, activities and various leadership roles across the school. All prefects are invited to become ambassadors for the school at special events.

School Captain
Once elected as prefects, students have the opportunity to apply to become a school captain. Applicants for the school captaincy present a speech to the student and staff body. Students and staff vote and there is also an interview process that applicants must participate in.

Mentoring
Year 11 students have the opportunity to take part in a leadership camp, and to train as Peer Mentors. Students have a number of opportunities to volunteer and assist with school functions.

School Representative Council
Students in all year levels have the opportunity to take part in the Student Representative Council. This council provides information about student views and ideas to the school Principal and the P & C.

Committees
As part of the leadership team, students will be involved in at least one of the many committees at Maryborough State High School. Committees include: Fundraising, Environment, Community, Student Representative Council, Sports Captain, Junior School and Creative Arts.
